Importance: High

The consultants found missed comments for summaries 10 and 15. It appears there's only one new comment on ESA so hopefully won't add a whole lot of work. The additions to Mitigation on the other hand adds quite a few comments so Matt, I think I'll need to add to responses before you begin ORC review.

I will add the revised summaries to sharepoint and will edit the mitigation "EDITED" document accordingly but I don't want to mess up what you (Alexis/Kavita) are doing with ESA responses so will let you add the missing comment (redlined in attached document).

Rosemary and Kelly, while reviewing our internal tracking, I realized that I had not coded one of the mitigation letters (DCN 0347 Ecological Restoration Business Association (ERBA)). Separately, I also realized that we had moved a comment excerpt into Code 10 ESA after we had delivered those summaries.

Attached are revised summaries for these two codes. My apologies, I hope this does not slow you down.

Please let me know if you have any questions or comments.
